## Documentary: 30 Years From Here

**30 Years From Here** examines the trials and tribulations the AIDS pandemic has created over the past 30 years.

The documentary looks at how this nondiscriminatory disease has affected many lives over many years. Hear personal accounts from people who were there in the beginning and have seen both the sorrow over lives lost and the hope generated by advances in medical research.

Activists, medical experts, and people who were on the ground describe their stories from the war on AIDS.

Interviewees include playwright Terrence McNally; activist and ACT UP found Larry Kramer; Marjorie Hill, CEO of Gay Men's Health Crisis; physician Frank Spinelli; director and choreographer Jerry Mitchell; author, actor and activist David Drake; and radio talk show host Larry Flick.
